

## JEOPARDY GAME RULES

1. Don't argue, shout, cuss, or threaten the Host, the computer operator or the judges – CAUSE YOU'LL LOSE!
2. The Game is composed of Jeopardy, Double Jeopardy, and Final Jeopardy. There is one daily double in Jeopardy and two daily doubles in Double Jeopardy. Wagers on daily doubles can be up to the amount already earned by the Team or up to 500 points for Jeopardy and up to 1000 points for Double Jeopardy.
3. Each team may have up to 7 team members. Three teams will play at each game.
4. The first team to ring the bell after the answer has been shown will have the opportunity to respond in the form of a question. All responses **must** be in the form of a question.
5. Each team will have 15 seconds to respond in the form of a question after they ring the bell. If the team does not respond in that time it is considered an incorrect response and points will be subtracted.
6. The first response from the team is their **final** response. The team responding correctly will have the next choice from the Game Board.
7. The total score is determined by the number of correct or incorrect responses to the answers and the point value associated with each answer.
8. If the response is not correct the value assigned to that answer will be subtracted from the team's total score and the other teams may ring in to have an opportunity to respond. If that team responds correctly they will receive the points. If they respond incorrectly they will also have points subtracted from their total score.
9. At the end of Double Jeopardy there will be Final Jeopardy. Each team can wager all or part of their accumulated score. The points wagered will be added to the teams total score if the response is correct and subtracted if the response is incorrect.
10. The winner of the game will be the team with the highest total score.
11. The judges are the final authority on the correct responses.
12. No observers from other teams scheduled to play Jeopardy in a later workshop are permitted in the sessions.
